

Church Growth

Activity (for when meeting in person):

The servants bring to class small pots, soil, seed, and water. After the lesson, the youth all get a pot, some soil, some seed, and water. Their homework will be to take the plant home and take care of it, and at the end of the month whoever's plant grows will win a prize.

For those who want to decorate their pots, supplies should be made available to them (maybe some paint, markers, etc.).

Activity (for Zoom or Google Meets format...this would work for in person as well):

Play Jeopardy: divide the class into two groups and have a servant in charge of keeping score while the other servant is in charge of the game.
